LECTURES, ETC.

BARNES, Dr. R.:
Clinical Lectures on the Significance of Uterine and Vaginal Discharges, 177
BARWELL, Mr. R.:
Clinical Lectures on Infantile Paralysis and its resulting Deformities, 249, 531
BRISTOWE, Dr. J. S.:
Croonian Lectures on Disease and its Remedial Treatment (Abstract of the). Delivered at the College of Physicians, March, 1872, 387

BROADBENT, Dr. W. H.:
Clinical Lecture on a Case of Renal Disease ending in Apoplexy, 103
CARTER, Mr. R. B.:
Lectures on Operative Ophthalmic Surgery. Delivered at St. George's Hospital, 495, 567
FORSTER, Mr. C.:
Abstract of Clinical Lectures on Surgery. Delivered at Guy's Hospital during the Session 1871-72.
Lecture I.—On Excision of the Elbow, 3
Lecture II.—On Umbilical Hernia, 141
Lectures III. & IV.—On Four Cases of Disease of the Knee-joint, 351, 423
Lecture V. — On Fracture of the Neck of the Femur, 887
GARROD, Dr. A. B.:
Clinical Lectures on various Diseases.
Lecture I.—On Lead-Poisoning—The Relation between Lead-impregnation and Gout — Liability of Gouty Patients to become Poisoned by Lead, 1
GULL, Sir W.:
Address on Clinical Medicine. Delivered before the Clinical Society, Jan. 20th, 1872, 139, 175
HEWITT, Dr. G.:
Clinical Lectures on Flexions of the Uterus, 281
HOLMES, Mr. T.:
Lectures on the Surgical Treatment of Aneurism in its various Forms. Delivered at the Royal College of Surgeons, June, 1872.
Lecture I., 783, 817
HUMPHRY, Dr. G. M.:
Clinical Lecture on Lithotomy. Delivered in Addenbrooke's Hospital, Cambridge, 747
MARSHALL, Mr. J.:
Clinical Lecture on the Treatment of "Persistent" Inflammation by the Local Application of Solutions of the Oleates of Mercury and Morphia. Delivered at University College Hospital, March 16th, 1872, 709
MEADOWS, Dr. A.:
Lecture on the History of Midwifery, introductory to the Course on Obstetrics delivered at St. Mary's Hospital Medical School, 637
QUAIN, Dr. R.:
Lumleian Lectures on Diseases of the Muscular Walls of the Heart (Abstract of the). Delivered at the Royal College of Physicians, March, 1872, 391, 426, 459
RUTHERFORD, Dr. W.:
Lectures on Experimental Physiology.
Lecture XI.—Circulation (continued), 69
Lecture XII.—Circulation (continued), 211
Lecture XIII.—Circulation (continued), 673
SMITH, Dr. H.:
Lectures (Abstract of Two) on the Diagnosis of Pelvic Swellings, delivered at the Hospital for Women, 852
STROMEYER, Dr. L.:
An Address on English Recollections of a German Surgeon. Delivered at St. Thomas's Hospital, May 23rd, 1872, 723
STURGES, Dr. O.:
Lecture on the Sanctions with which Drugs are Administered. Introductory to the Course on Materia Medica delivered at the Westminster Hospital School, 711
THOMPSON, Sir H.:
Clinical Lecture on the Early History of Calculous Disease, and the Treatment best adapted for its Prevention. Delivered in University College Hospital, in May 1871, 35
Clinical Remarks (Substance of) on a recent Case of Lithotomy at University College Hospital, in which the Operation was performed for the purpose of Removing a Piece of Bone from the Bladder, 851
WATERS, Dr. A. T. H.:
Clinical Lecture on Thoracic Aneurism. Delivered at the Liverpool Royal Infirmary, 247
Clinical Lecture on the Use of Hydrate of Chloral in certain Diseases of the Chest, 603
WATSON, Dr. E.:
Clinical Lecture on Lithotomy, 605
WOOD, Mr. J.:
Clinical Lecture on Tracheotomy. Delivered at King's College Hospital, Jan. 12th, 1872, 317

Lee, Dr. R. J., on phlegmasia dolens, its origin and its connexion with erysipelas and other infectious diseases, 497
——, Mr. H., on the use of the calomel vapour bath, 222
Leeds Fever Hospital, 134
Lees, Mr. F. A., Dr. Dupré's experiments on alcohol, 884
Leg, compound comminuted fracture of the, four attacks of erysipelas, pleurisy, treatment by antiseptics, good result, 577
Legg, Dr J. W., a Treatise on Hæmophilia (review), 225; a Guide to the Examination of the Urine (review), 360
Leicester, sewers and sewage of, 25
Leicester Union Workhouse, 314
Leigh, Mr. J., obituary notice of, 454
Leith Hospital, 411
Lepra anæsthetica, 615
Leprosy, 849, 912; treatment of, 615
Leucocythæmia, great hypertrophy of spleen, constant deposit of uric acid in urine, 682
Leukæmia lymphatica, 577
Lever, Charles, 802; on the medical profession, 60, 100
Liberal cheeseparing, 472
Licensing Bill, the, 585, 653, 841
Liebig's concentrated milk, patent extract for preparing, 155
Liebreich's chloride of ethyl, 379
Life assurance, 407, 601; a new system of, 315; for the working classes, 633; offices, the medical profession and, 34, 99
—— insurance accounts, 279
—— in death, 816
Lindsay, Dr. J. M., mechanical restraint in cases of insanity, 746
Lithotomy, on, 605; cases of, 111, 648, 649; on a recent case of, at University College Hospital, in which the operation was performed for the purpose of removing a piece of bone from the bladder, 851; forceps, 816
Lithotrite, an improved, 227; removal of a foreign body from the bladder by means of the, 252
Lithotrity in a case of stricture of the urethra, 380
Littré, M. E., 135; on medical education, 313
Liver, subacute yellow atrophy of the, 223; yellow atrophy of the, 288; abscess of the, operation, recovery, 647; the formation of glycogen in the, 696
LIVERPOOL CORRESPONDENCE.—The death-rate of Liverpool, 61—The appointment of public analyst, 61, 310—Hospital honorary medical appointments, 62—The Southern Hospital, 310—Hospital Sunday, ib.—Skin-grafting, ib.—Opening of the new hospital at Bootle, 560—Examination of midwives, ib.—Opening of the Southern Hospital, 779—The fancy-fair and bazaar for the Royal Southern Hospital, 882

Microscope, the St. Thomas's Hospital, 404
Microscopic Dictionary (review), 830
Middlesex Hospital, 660
Midwifery, on the history of, 637, 705
——— fees, 280, 316, 383
——— forceps, a new, 9, 95
Midwives, the examination of, 24, 116; education of, 137; English, their history and prospects, 500, 533, 608, 749, 822
Military female hospitals, 291
Militia surgeons, 372, 409, 416, 493, 512, 563, 587, 671, 706, 840
Milk, adulteration of, 510; in workhouses, 163
Millar, Dr. J., obituary notice of, 241
Millbank Prison, on the extinction of typhoid fever in the, by the disuse of Thames water, 787, 820
Miller, Dr. J. W., treatment of enteric fever, 208, 244
Milroy, Dr. G., the leprosy mission of, 873
Mines, children in, 552
——— Regulation Bill, 232, 347, 512

MIRROR OF HOSPITAL PRACTICE.

BALTIMORE (U.S.A.) EYE AND EAR INFIRMARY.—Effects of strychnia in exciting the retina and optic nerve, as exemplified by typical cases, 12—Accidental iridoremia; or, complete removal of the iris by the finger-nail of an antagonist, 828

BIRMINGHAM AND MIDLAND EYE HOSPITAL.—A piece of willow-stick, three-quarters of an inch long, lodged in the upper eyelid, simulating abscess and tumour, 719

BIRMINGHAM AND MIDLAND HOSPITAL FOR WOMEN.—Case of puerperal eclampsia at the fifth month of pregnancy, 578

BIRMINGHAM, QUEEN'S HOSPITAL.—Removal of cancerous tongue; recovery, 540

BLACKBURN AND EAST LANCASHIRE INFIRMARY. —Popliteal aneurism cured by flexion, 660

BRADFORD INFIRMARY.—Ligature of arteries for aneurism, 149

CASHEL WORKHOUSE INFIRMARY.—Use of Dieulefoy's aspirator for diagnosis in supposed abscess of the liver, 80

CENTRAL LONDON SICK ASYLUM.—Cerebro-spinal meningitis with myelitis of the cord, 756

CHARING-CROSS HOSPITAL.—Excision of the astragalus, of the wrist, of both superior maxillæ, of the knee, of the ankle, and of the tongue, 79 —Fracture of the zygoma, 166—Paralysis in a syphilitic subject treated by large doses of iodide of potassium; cure, 255—Congenital hypertrophy of the tongue; removal by the écraseur; recovery, 432—Case of ichthyosis linguæ, 648

CHATHAM, ST. BARTHOLOMEW'S HOSPITAL.—Diffused popliteal aneurism (left); amputation of thigh; subsequent femoral aneurism of right thigh; ligature of femoral artery; recovery, 187

EDINBURGH ROYAL INFIRMARY.—Lithotrity in a case of stricture of the urethra, 360

GREAT NORTHERN HOSPITAL.—Axillo-subclavian aneurism treated by pressure on the cardiac side of the sac; sloughing of the integument and deep tissues around the sac; recovery; partial cure of the aneurism, 185—Rodent ulcer cured by iodide of potassium, 256—Removal of a large cyst from the neck; recovery, 358—Excision of the hip-joint, 793, 827, 860

GUY'S HOSPITAL — The relative advantages of stimulants and bloodletting; the tricuspid bruit, 78—Diagnosis of thoracic tumours; the assistance to be derived from the laryngoscope, ib.—The administration of alcohol, 113—Polypoid tumour of larynx, stopping the œsophagus, ib.—Excision of the hip-joint; recovery with good limb, 576—Cancer of the left forearm; amputation at the elbow-joint; recovery, 718

HIGHGATE INFIRMARY.—Syphilitic growth of the right cerebral hemisphere, 539

HOMERTON FEVER HOSPITAL.—The effect of quinine on the temperature in enteric fever, 506

HOMERTON SMALL-POX ASYLUM. — Hæmorrhagic small-pox associated with tetanus, 187

HOSPITAL FOR WOMEN.—Ovariotomy, 280, 322, 358

KING'S COLLEGE HOSPITAL.—Removal of a large fibrous polypus from the pharynx, 147—Tenotomy, 148—Hydrops articuli; treatment by tapping, ib.—Stone in the bladder, complicated by stricture of the urethra; lithotomy, 255—Amputation of the thigh for disease of the knee-joint, 755—Removal of scirrhous breast, ib.—Hare-lip, ib.—Ligature of the subclavian, ib.

LANCASTER INFIRMARY.—Compound dislocation of the ankle, 613

LEEDS GENERAL INFIRMARY. — Three cases of wounds of joints, 256

LIVERPOOL NORTHERN HOSPITAL.—Cases of compound fracture, 578

LIVERPOOL SOUTHERN HOSPITAL. — Fractured spine with dislocation; reduction with pulleys, 309

LONDON HOSPITAL.—Treatment of hyperpyrexia by baths, 46—Remarks on a case of chorea in a dog, 148—Wound of knee-joint; perfect recovery without suppuration under antiseptic dressing; painless distension of the joint with solution of carbolic acid, 186—Peripheral hemiplegia, 254—Ovaritis; tetany, ib.—Similarity between ovaritis and typhoid, ib. — Keloid treated by iodide of potassium, ib.—Compound fracture of left humerus, communicating with elbow-joint; extensive bruising of soft parts; speedy conversion into a simple fracture; union with good movement at the joint; under antiseptic dressing, 322—Fractured skull with extravasation of blood, 467—Remarks on difficulties in the diagnosis of the causes of apoplexy, by Dr. Hughlings Jackson, 505—Compound fracture into the ankle-joint, treated antiseptically, 612

MANCHESTER WORKHOUSE HOSPITAL. — Leucocythæmia; great hypertrophy of spleen; constant deposit of uric acid in urine, 682—Exophthalmic goitre; unusual severity of symptoms; ulcer of cornea; cured, 827

MIDDLESEX HOSPITAL.—Stricture of urethra, 11 —Fractured patella, ib.—Extensive burn, ib.—Cancer, ib.—Erysipelas of scalp, ib.—Excision of the knee-joint, followed by extensive suppuration and diffuse cellulitis; amputation of the thigh; secondary hæmorrhage thirty-six days after operation; ligature of the femoral; recovery, 432—Epileptiform seizures relieved by bromide of potassium, 539—Extract of nettles in whooping-cough, ib.—Sick headache treated successfully by Indian hemp, ib.—Compound comminuted fracture of the leg; four attacks of erysipelas; pleurisy; treatment by antiseptics; good result, 577

MOORFIELDS OPHTHALMIC HOSPITAL. — Cases of Basedow's disease, 538—Melanotic tumour of the eye; excision of the globe and application of the chloride-of-zinc paste to the tissues within the orbit; recovery, 647

NATIONAL HOSPITAL FOR THE PARALYSED AND EPILEPTIC.—Case of clonic spasms occurring only when the patient attempts to stand, 148

NEWCASTLE-ON-TYNE INFIRMARY. — Extensive wounds of the knee-joint, 506

RADCLIFFE INFIRMARY, OXFORD.—Pelvic hæmatocele, 114

ST. BARTHOLOMEW'S HOSPITAL.—Abscess of the liver; operation; recovery, 647—Cases of strangulated hernia, 792

ST. GEORGE'S HOSPITAL.—Mr. B. Carter's ophthalmoscopic demonstrations, 221, 468—Yellow atrophy of the liver, 288—Operations on the eye, 613, 792

ST. MARY'S HOSPITAL.—Aneurism at the root of the neck; ligature of the right carotid and subclavian arteries; recovery from the operation, but without permanent result on the aneurism, 45—Fracture of the humerus, with laceration of the brachial artery; mortification of the limb; amputation at the shoulder-joint; recovery, 755

ST. THOMAS'S HOSPITAL.—Softening of the brain

following syphilis; death, 836 — Tubercular meningitis; death, ib.
SALISBURY INFIRMARY.—Cancer of the pectoralis major muscle, 613—Traumatic cataract; operation, 794
SAMARITAN HOSPITAL.—Ulcer of the stomach; rupture of the heart, 290
SEAMEN'S HOSPITAL, GREENWICH.—A case of pro-thorax, 114—Dorsal dislocation of hip of fifteen days' standing reduced by manipulation, 468—Gonorrhœal inflammation of an imperfectly descended testis; treatment by puncture, ib.—A large sublingual cyst treated by puncture and drainage, ib.—Leukæmia lymphatica, 577 — Supposed hepatic abscess discharging through the lung, 681
SOUTH DEVON AND EAST CORNWALL HOSPITAL, PLYMOUTH.—Lithotomy; hæmorrhage on the sixth day; recovery, 648—Lithotomy; erysipelas; recovery, ib.
SOUTH STAFFORDSHIRE GENERAL HOSPITAL.—Penetrating wound of the knee-joint, 323
SUNDERLAND INFIRMARY.—Strangulated hernia, 80—Compound fracture of the arm, with rupture of radial artery and some of the flexor tendons, ib.—Cases of diabetes, 718
UNIVERSITY COLLEGE HOSPITAL.—Dislocation of the left hip; reduction by Bigelow's method, 10 — Encephaloid cancer of the testicle; castration; unobliterated processus vaginalis testis; peritonitis; death, 47 — Testis in the perineum, ib.—Removal of large fibro-cystic tumour of lower jaw; recovery, 397—Cases of stricture treated by a new wedge dilator, 466—Excision of upper jaw; recovery, 611—Fibroplastic tumour of right upper jaw; excision; recovery, 612—Strangulated inguinal hernia in a child six weeks old; operation; recovery; subsequent death from idiopathic pleurisy and peritonitis, 681—Intestinal obstruction; cause obscure; death; obturator hernia discovered, 858
VIENNA GENERAL HOSPITAL.—Cystic tumour of unusual character in the wall of the uterus, 12 —Professor A. Duchek on the bruit du diable, 149—Herpes impetiginiformis, 399
WEST LONDON HOSPITAL.—Retention of urine from a recurrent calculus; urethrotomy; recovery, 433—Pericarditis with effusion; death, 682—Retention of urine from stricture; extravasation; recovery, 827
WESTMINSTER HOSPITAL.—Escape of a tracheotomy-tube into the trachea, owing to erosion of the junction of the tube and shield; removal by enlarging the original opening, 113—Ligature of the common carotid for hæmorrhage from cancer of the tongue, 357
